

Parents,

I use Edmodo in my class to communicate with students and parents.

Edmodo is an educational website that takes the ideas of a social network and refines them and makes it appropriate for a classroom. Using Edmodo, students, parents and teachers can reach out to one another and connect by sharing ideas, problems, and helpful tips.

Signing up for an Edmodo Parent Account is a great way to stay up to date about your child's classroom activity, such as assignments and school events. Once you create a Parent Account, there is never a need to create a new account. You will use the same account year after year. As your child joins new classes/groups, your account will be updated to reflect these changes.

If you'd like parental access to your child's Edmodo account, please click the link below for a tutorial of how to access.
