

Simmons Elementary
Policy Revision Date: March 2015
Policy: Alignment With State Standards

Policy Statement: Under the direction of the Instructional Leadership Team at Simmons Elementary, the planning process will ensure:

- Sustained analysis of whether each of the programs is contributing adequately to helping all students meet state standards by reviewing the Unbridled Learning: College/Career Readiness for All Accountability System results and other formative assessment results.
- Systematic work to improve those programs in order to meet state standards for all my students within the timetable set by the Kentucky Board of Education.
- Ongoing monitoring and evaluation of the implementation and impact of the programs.
- The continual improvements and revisions are made to program strategies based on the regular monitoring and evaluation of their effectiveness.

This process will be implemented and reviewed to reflect alignment of state standards through needs assessment and implementation and Impact Checks.
